Big Roy,
you really spend too much time
talking to Pat Munday in English - Not
only is it hard on the Plem's nerves

See you next year,

A black and white photograph of a plant branch with small, pointed leaves and seed pods, set against a dark, textured wooden background. The branch enters from the bottom left and extends towards the upper right. The wood grain is prominent, with vertical lines and some horizontal streaks. The lighting is dramatic, highlighting the branch and the texture of the wood.

"The mass of men lead lives of quiet desperation."

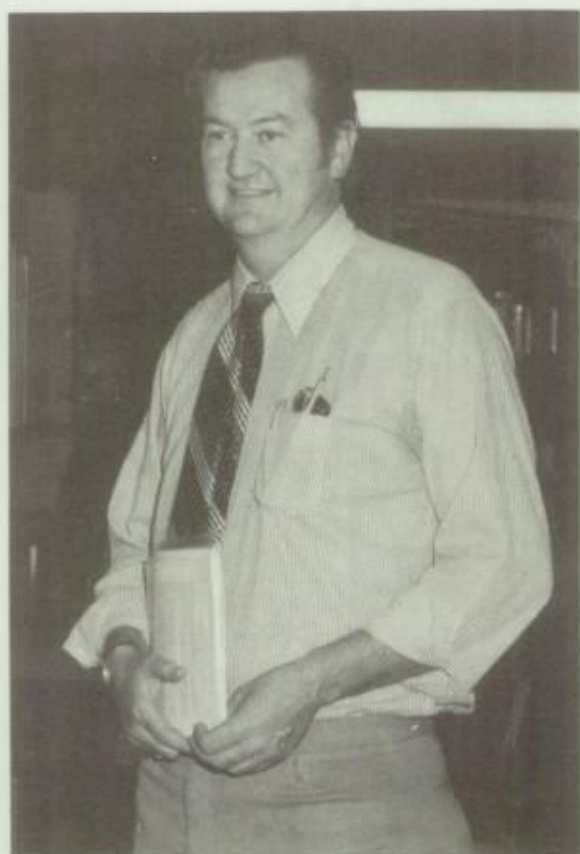

This unhappy fact was observed by Thoreau more than a century ago and it is probably more true today than it was when America was a nation of farms and villages. The question remains: how can men and women avoid being a part of this miserable mass?

The discovery of life, at least the discovery of a good exciting, and satisfying life, requires from the individual both quiet reflection and active participation ... These two requirements have been for generations the theme of literature, art, and religion. Thoreau spent his years at Walden Pond in an attempt to discover the true meaning of living so that "When it comes my time to die, I shall not say I never lived." His concern, like the theme of this 1975 Manzanita, was, "Discover Life."

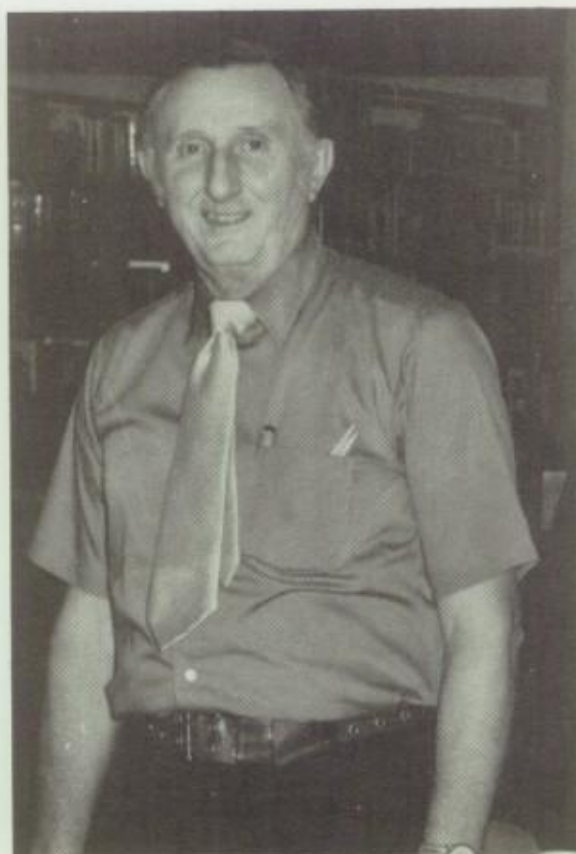

It is our hope at Watsonville High School that during this past year we gave to the young people of our community an opportunity for both quiet reflection and active participation. Socrates said "Know thyself"; unless an individual knows himself he can never know how he should fit into the world in which he lives. However, he must also understand and appreciate the variety of pleasures and responsibilities which the world provides and which are available to him as a member of the great community of mankind.

That is what a school is all about: it should provide the time and place for young people to learn about themselves and about the world. It should be a beacon in the search to "Discover Life."

Faculty Flicks

A black and white photograph of a wooden plank wall. The planks are horizontal and show a natural wood grain with various knots and imperfections. A large, prominent knot hole is visible on the left side, about halfway down the frame. The lighting is somewhat uneven, with brighter areas in the center and darker areas towards the top and bottom. The overall texture is rough and aged.

Varsity

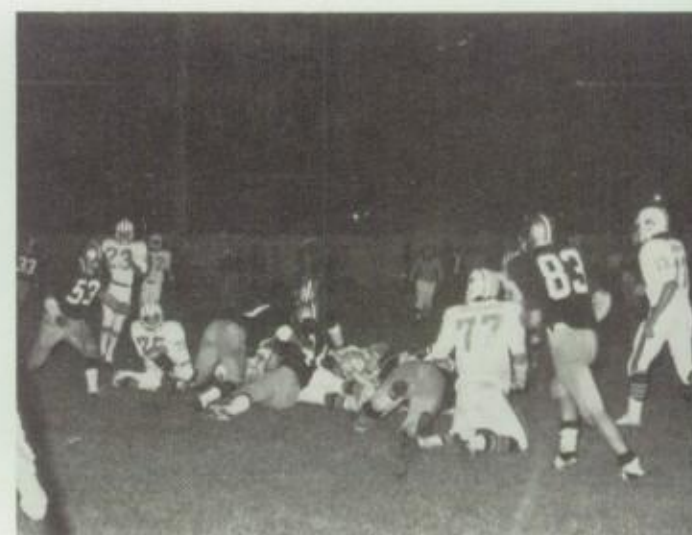

Through the first 6 games, the 1974 season appeared as though it would bring a chance to Watsonville football. After giving away the opener to Woodside, the Wildcatz won two from Palma and Salinas. Fumbling in crucial spots against Monterey, a thing that would plague Watsonville all year, was a minor factor in a 22-7 loss.

The Wildcatz then put together their two best offensive efforts of the season defeating Alisal and Harbor and tying for the league lead.

From this point the season was very disappointing as the Wildcatz lost the remaining four games and wound up the season at 4 wins and 6 losses.

Frosh

The Freshman Football team started very slowly. About midseason the team came together and stayed together showing improvement following every ball game. The strong quality of this team is their competitive attitude. This team exemplifies the "never say die" attitude of a winner.

JayVees

Coaches Hardy and Grabast

The 1974 Junior Varsity football team finished the season with a 4-4-2 win loss record. Never has a J.V. Football team looked so good while winning only four games. Each game showed the steady hard hitting defense that seldom gave up more than one touchdown per game.

Hitters like Earl Pirtle, Lane Borg, and Pete Legorretta were always letting the opposing team be aware of their presence on the field. The secondary, spearheaded by Mark Bernhart, made it difficult on opposing quarterbacks by averaging more than one interception per game.

Offensive standouts like quarterback Ron Salinas, running backs Robert Rodriguez, Joe Nuno, and Dale Ogden had the potential of scoring anytime from anyplace on the field.

The "complete" game both offensively and defensively came against Harbor with a 14-0 score and against San Lorenzo Valley 22-0 where both the offense and defense scored.

Though this years season cannot be called a losing one, it was not a winning season either. After the final losing game with Aptos 8-0 the words on the lips of every J.V. player was, "Wait until next year."

Cross Country

The Watsonville Cross Country team continued to dominate the M.B.L. as the Varsity and Junior Varsity teams were League Champions. The Wildcatz were led by All Northern California runner Rudy Munoz. Virtually the entire Varsity team were All League selections-the top 15 runners from among 11 high schools in the M.B.L. Additionally, the Catz ran extremely well at the U.S. Postal Championships which should rank them in the top 10 teams in the nation.

The J.V.'s were led by Moses Valdez, Robert Panabaker and Pete Hernandez. Ramon Vasquez was the leading Frosh-Soph runner.

The Wildcatz competed against and defeated over 200 schools from San Diego to Nevada-adding to their fantastic dual meet record by making it 146-2-1.

Roy, I don't know much about you except that my team kicked your
1/2nd break smoke - Pumping from way outside - What a game - 1st period
really displayed our ability as we wiped 6th and others off the court - That's
one memory of many that will remain forever in my ^{cherished} subconscious -

John
Hutchins

I am endless,
possessing the strength and power
to change my path, my destiny.
My life is my movement.
I am alive
for I live with feeling,
with meaning.

With the establishment of the new ceramics department, the students of Watsonville High have been given a new means of expressing themselves creatively. Hand-built and wheel-thrown ceramic ware, both low and high-fire, are produced daily to the enjoyment of the students participating. Glaze formulations, throwing techniques, sculpturing, and the firing of one's own creations are some of the highlights of this new class. The class, offered on a semester or yearly basis, is open to any interested student.

AFS '75

Anita Tuosto has been chosen as the 1975 American Field Service representative from Watsonville High School.

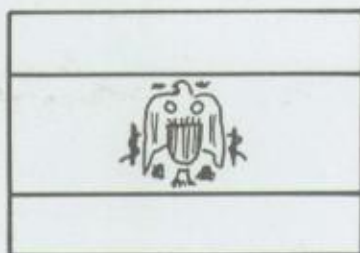

This past summer I was lucky enough to go to Norway on an A.F.S. Scholarship. My summer was in no way a vacation but it was a fantastic experience. I was sent to a family on the island of Senja which is located about 120 miles north of the Arctic Circle. My father was a farmer-fisherman. I worked with my family everyday and became very close to them.

I think I learned a great deal from my experience and that I am a better person because of it. It has given me incentive to fight for peace and possibly has changed the direction of my life.

I recommend A.F.S. to everyone.

John Ray
SP Norway, '74

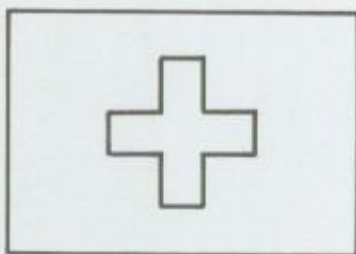

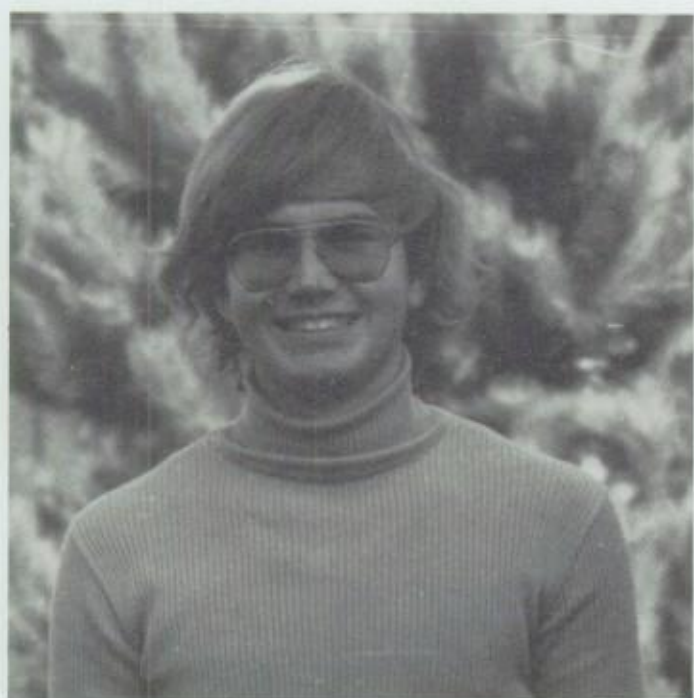

This year in the U.S. has been the most beautiful experience that I have had in my life. I was chosen by the A.F.S. Organization to come here and share all kinds of ideas and points of view with the people of this country.

It has made possible the development of my personality by meeting people, attending school, making close friends, and living with a wonderful family. The most important things that I learned were how to adjust to different ways of life and how to participate in all activities that my community did.

It was good for me to experience the American ways of living. I really felt like an American for a whole year and I want to give thanks to all the people who have helped me to belong to this loving city of Watsonville.

Maribel Ramos, Spain

Hi, friends! I am Thierry Matthey, the insatiable and terrific I.C.Y.E. student skier from Switzerland. Boooo! I have lived for one year with a very nice family, the Nestler's.

I was really happy to be at W.H.S. which is less hectic than my country, but where a good atmosphere reigns. I thank everyone for helping me to get to know the American people, their customs and their life-style. I think this has been the most beautiful experience in all my life. I hope to have the pleasure of seeing you again and soon.

SNO CATZ ON THE SLOPES

A black and white photograph of a wooden surface, likely a piece of weathered lumber. The wood grain is highly textured, with a prominent knot visible in the lower-left quadrant. The lighting creates strong shadows and highlights, emphasizing the natural imperfections and grain of the wood. The word "ADVERTISEMENTS" is printed in a clean, white, sans-serif font in the bottom right corner.

Today is mine, each shining golden hour
In heart and hand and mind, I hold the power
To mold in new design, in patterns gay,
The beauty I shall find along the way.

Ray,
It's been real
fun in Sociology.
Just think, next year
you're gonna be a
Big Senior. Have a
good summer and stay
